# Our Mission

This is a small but unique attempt to honour and respect the sacrifices made by the billions of parents worldwide in order to fulfil their dreams of raising their children to the status of a successful human being.

There have been loads of awards honouring Film Personalities, Scientists, and other mainstream professions. However, this is the first time in the world that all parents irrespective of caste, creed, religion or race of any successful achiever from any walk of life will be honoured and given all due respect which they truly deserve.

As children, we get so busy in our hectic lives that we forget the sacrifices of our parents and realise about it only when it's too late. Mom Dad Our awards will be a first of its kind initiative in the world where we would honour the deserving parents even if they are not with us anymore.
